

Product Specification Sheet

Medi-Loc™ T/E CRC Cap with White Ring & Saranex Liner - 28mm

Product code: TECRPP28-SL

Pack Size: 950

Size: PP28/28mm

Product Summary

- Once cap is screwed on to the bottle the tamper evident seal will need to be broken in order for the cap to be removed
- Child resistant
- Suited to all PP28 neck bottles
- Liner helps to preserve the freshness and prevent any leakage
- Liner is retained in place rather than glued in making the mechanical retention more robust, as risks regarding glue coverage variation (which may lead to liner fall-out) are fully mitigated
- This manufacturing method eliminates a raw material (glue) from the supply chain - an environmental benefit
- Compliant with the Food Contact Plastics Regulation (EU) 10/2011 and EMA/410/01 rev. 3
- BPA free
- Caps are 100% recyclable but the lining is non-recyclable
