

Product Specification Sheet

Precision® Specimen Container - 20ml

Product code: SB20B

Pack Size: 500

Size: 20ml

Product Summary

- Robust containers ideal for both solid or liquid biological and non-biological specimen collection, storage and transportation in harsh conditions
- Can be widely used in a range of applications including pathology, histology and water sampling
- Leak-resistant
- Supplied nonsterile with separate screw cap
- An easy to grip ridge design on both cap and jar ensure easy opening and closing the container even when wearing gloves
- Manufactured in the UK
- Caps are made from high density polyethylene (HDPE) while the high-clarity containers are manufactured from durable polypropylene to ensure their contents and volumes are easily visible
- CE marked for IVD
- 95kPA tested
- 100% recyclable - the recyclability of these containers is dependent on the application and they should be disposed of in line with clinical waste guidelines as required
